# ***Partners spotlights grads, programs***

*Annual newsletter distributed across Saskatchewan this month*

**June 24, 2005** – From health care in Hudson Bay to heavy equipment mechanics in Swift Current, SIAST grads keep Saskatchewan running smoothly. SIAST's impact is ubiquitous, says president and CEO Dr. Robert G. McCulloch, in this year's issue of *Partners*, the organization's annual newsletter.

Starting this Saturday, *Partners* will be distributed across Saskatchewan through the province's daily newspapers and several of the larger non-dailies. The newsletter highlights just a few of the SIAST programs and services that advance social and economic development in Saskatchewan. It also profiles several SIAST employees and graduates who epitomize SIAST's slogan: "Putting knowledge to work."

Headlines in this year's newsletter include:

- SIAST faces intense space issues
- On call: Nurse practitioners push the limits
- Extension delivers just-in-time training
- Engineering tech grads scooped up

For an online preview of *Partners*, visit [www.goSIAST.com](http://www.goSIAST.com) and click on New @ SIAST.

SIAST is Saskatchewan's primary public institution for post-secondary technical education and skills training, recognized nationally and internationally for its expertise and innovation. Almost 12,000 students are registered in SIAST programs, which touch every sector of the economy; additionally, the organization draws more than 27,000 individual course registrations. It operates campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and provides a number of courses and programs through distance education.
