SIAS students connect with employers

36 employers attend SIAS Wascana career fair

February 4, 2010 – SIAS Wascana Campus is hosting its career fair in Regina today. Students from applied/visual media, business, technology, industrial, nursing, science, health services, and community/human services programs will have the opportunity to explore employment options with recruiting companies.

The career fair was organized by the SIAS Wascana Campus Student Employment Services (SES) office. A SES office at each of SIAS's four campuses provides career information, job search and recruitment services to students and employers.

"Our career fair is an initiative that benefits everyone," says Sandra Szeponski employment services coordinator, SIAS Wascana Campus. "It provides another way for business and industry to connect with their future workforce."

While more than 1,000 SIAS students at SIAS Wascana Campus are expected to explore their employment options at the career fair, many students won't complete their training until April and May of this year.

SIAS is Saskatchewan's primary public institution for post-secondary technical education and skills training, recognized nationally and internationally for its expertise and innovation. More than 14,000 students were enrolled in SIAS programs in the most recent academic year; additionally, the organization drew almost 30,000 individual course registrations. Through program and course registrations, SIAS served almost 26,000 distinct students with programs that touch every sector of the economy. SIAS operates campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and provides a number of courses and programs through distance education.
